Introduction

Thanks for downloading this eBook.

The aim of this eBook is to give you some real world actionable steps you can take right now to begin increasing your wealth.

This eBook will be simple and straight to the point, it's just the way I am 😊

If you would like to learn more who I am and how to contact me at the end of this eBook.

What you're about to learn in the following pages are some simple techniques and strategies, yet when implemented and 'switched on' they are very powerful in form of wealth creation.

Some of these strategies can be set up once and then that is it, they will then run on autopilot creating your wealth over time in the background. While other strategies will require more time and effort however the payoff is defiantly worth it.

All these strategies are designed to require minimal time with maximum output, after all lifestyle is what it is all about, having the time and the money.

This also means if you are currently working fulltime you can still implement these strategies without it interfering with your job. That is until you start making money from than what your job is paying you, but that is a problem for your boss to worry about not you ;-)

The Secret To Getting Rich

Before we get into the nuts and bolts of how to make more money and how you can start earning money in your Paypal account today. I want to show you a few powerful strategies you can start using right now that will help you increase your wealth without earning anymore more money than you are now.

After all it's not always about how much money you make, it is also about how much you keep and multiple what you already have.

The Most Powerful Force Wealthy People Use To Create Massive Wealth

Einstein said the most powerful force in the universe is the power of compounding and when allied to your finances it has been one of the secret wealth strategies used by the ultra-rich.

If you don't know what compounding is, it's simply something that is doubling itself in value each cycle. For example 1, 2, 4, 8, 16, 32, 64, 128, 256, and so on.

To give you an idea of the power of compounding, let's say you start with (\$0.01) just 1 cent and you use the power of compounding and double it each day for 30 days.

How much money do you think it will equal by the end of 30 days?

Seriously take a guess.

Will it be \$30.00?...

\$600.00....

Over \$100,000?

Have you chosen your answer?

Are you ready...

How about a whopping \$5,368,709.12! (Did you guess that much?)

Yes, that is over 5.3million dollars in 30 days starting from just \$0.01 cent!

Day	Value
1	\$ 0.01
2	\$ 0.02
3	\$ 0.04
4	\$ 0.08
5	\$ 0.16
6	\$ 0.32
7	\$ 0.64
8	\$ 1.28
9	\$ 2.56
10	\$ 5.12
11	\$ 10.24
12	\$ 20.48
13	\$ 40.96
14	\$ 81.92
15	\$ 163.84
16	\$ 327.68
17	\$ 655.36
18	\$ 1,310.72
19	\$ 2,621.44
20	\$ 5,242.88
21	\$ 10,485.76
22	\$ 20,971.52
23	\$ 41,943.04
24	\$ 83,886.08
25	\$ 167,772.16
26	\$ 335,544.32
27	\$ 671,088.64
28	\$ 1,342,177.28
29	\$ 2,684,354.56
30	\$ 5,368,709.12

You see its starts out small and takes a while for it to build momentum but as you can see by day 21 it really starts to pick up steam and it grows really fast from there.

I hope you now understand the power of compounding. Even with a small amount you can grow a fortune and the sooner you start using the better.

You do need to understand that this example is at a rate of 100% which is not realistic in reality. There may be deals out there that can get those kind of returns but they are defiantly not typical.

There are many investments however, that offer compounding returns you just need to look out for them and do your research.

One of these methods that I am currently using is:

Peer-To-Peer Lending: This is basically where you lend your money out to other people with interest. There are many companies that provide this service and you can easily manage your money online.

There are many peer-to-peer lending services out there and they all have their own slight twist on how they work so like all investment make sure you do your own research.

The one I use and recommend is RateSetter.com.au their platform is very easy to use and they have a great track record.

They were the first peer-to-peer lending company to introduce a provisional fund to cover any non-payments and since they started they have never not paid a lender. I can get up to 10% per annum return on my money. What I like to do is spread my money around in multiple loans as an additional safeguard.

RateSetter.com.au is a great way to get better returns on your money than the banks will give you, it's easy and safe to use and have a great reinvestment feature. I recommend checking them out.

You can invest as little as \$10 at a time at a 1 year, 3 year or 5 year loans and you can pick the % rate you want to lend you money out at.

They also operate a UK branch and there are also many peer-to-peer lending services in the US such as LendingClub.com and Prosper.com just to name a couple. There are also ones that specialize for more sophisticated investors with more to invest like SocietyOne.com.au.

IMPORTANT Side Note: If you are not currently paying yourself first and saving at least 10% to 20% of what you are currently earning, then **START DOING THAT NOW**. Even if you don't do anything else from reading this eBook at least take this one action. You're future self will love you for it.

If you are already saving, then starting putting some of that money in to Ratesetter or another Peer-to-peer lending service. You will get much better return than you are getting in the bank.

Another way to automate your wealth creation is by taking advantage of rise of the new software driven wealth management services that are rising to popularity due to their low fees, automated portfolio re-balancing, automated tax-loss harvesting and much more.

One of the leading companies in this field is:

WealthFront.com - Wealthfront is perhaps the largest and fastest-growing online financial advisor in the industry. Based in Silicon Valley, Wealthfront was the first to reach \$1 billion in assets under management (AUM), and they did it in just two and a half years. Wealthfront claims to remove all commissions and account maintenance fees, by charging just 0.25% of AUM in your account. And the first \$10,000 is managed for free!

Types of Accounts Supported:

- IRAs
- Roth IRAs

- SEP IRAs
- Trusts
- Taxable
- Non-profit accounts

Features:

- First \$10,000 managed free
- Earn free management of an additional \$5,000 when you refer a friend
- Automated portfolio rebalancing
- Daily tax-loss harvesting
- Choose your risk level
- Customized portfolio
- Single Stock Diversification Program
- Automated deposits

Fees

Wealthfront charges one fee rate, 0.25% of your account balance. However, the first \$10,000 is managed for free. Additionally, an attractive feature to their pricing is the Wealthfront Invite Program.

Now they are some strategies you can start implementing immediately to start getting a better return the money you are currently earning. What is great about these is that once they are set up, they will just keep growing your wealth on autopilot in the background.

So take the time to plant that seed, just like the \$0.01 in the example above.

Now let's move on to some ways you can start making more money.

Time To Get Paid.

(Are you ready?)

As promised I was going to show you a way to start earning money in your Paypal account in the next 30 minutes, so let's start here.

Time To Get Serious – Here's Where the BIG Money Is At.

Ok, those methods above are great for making some money on the side, so you have more to invest or maybe to help pay off some credit card debt, student loans or fund a new holiday with the family.

However if you want to create true freedom and speed up your wealth creation then you need a way to increase the amount of income you earn.

Do you know the #1, most common characteristics nearly all millionaires share?

If you said, "Owning their own businesses" - you're absolutely right.

Nearly everyone millionaire today owns their own business. Coincidence? I don't think so. Why should you waste your talents and skills as someone else's employee...while you help make them rich? Be your own boss! It's easier than you think.

Now your goal may not be to become a millionaire, but if you're reading this I am going to assume you want more money and more time to enjoy it. A business that can provide you a good lifestyle and a way to support you and your family for generations to come.

Your Personal Invitation

Discover How You Can Build a GLOBAL Home Business in a RED-HOT Market.

This is your opportunity to leverage 5 of the hottest growth trends and partner with a Billion Dollar eCommerce Brand.

This is an instant business that you can have immediately.

Website and products ready to go. *No technical skills required.*

No messing around with...

1. Website design
2. Shopping cart software
3. Hosting or server
4. Fulfilment service (packaging and shipping out the product)
5. Website copywriting
6. Back-end automation
7. Customer service

Why eCommerce?

...because it hit hits all the requirement we are seeking:

1. Global Reach. Imagine opening a "store" where you can get customers from all around the world. If you take a while to ponder on this, it's truly unimaginable

how big your business can grow. Just like what is happening right now – I was able to “connect” with you without any conventional medium. Remarkable, isn't it?

2. Speed. Everything is one a click away. Just think... assuming you're selling a product online and you told your friends and neighbours about it. Within the next 10 minutes, they could be ordering your product from the comfort of their homes. Heck, they can be doing this even while they're at work because they could be ordering it via their iPhones or smartphones.

3. Extremely Low Costs. You could be running a full-fledge business and yet, a one-person band business. No office rental, hiring staff and all of the other conventional business headaches. Furthermore, your “store” is open 24 hours a day. What else can you ask for?

Think of it this way...

Your e-commerce business can generate a passive income for you. Simply because you're not working anymore.

It's definitely a leverage income model because you're leveraging on the internet, automation mechanism and so on.

Lastly, it has the opportunity to make a massive income because your internet business is scalable and you're building AN ASSET for the future.

Just to reaffirm you that you are on the right track with an e-Commerce business...

The richest man in China today is Jack Ma. The guy behind Alibaba.com, the world's largest B2B e-commerce marketplace. Just think about this; he is able to beat all of the real estate moguls, car maker entrepreneurs, plantation owners and so on in China. One word – eCommerce business.

eCommerce allows a business owner to reach globally within seconds.

And do you know that the RICHEST MAN in China before Jack Ma was the founder of Tencent, the dotcom company that created QQ chat? Pony Mah was only 42 years old then.

The reason why I'm referring to China is to bring out a very important awareness - eCommerce is not just happening in United States anymore. Obviously, that's the #1 market but the matter of fact is, the whole world, especially Asia is picking it up rapidly now. So don't miss this boat and regret later.

We have systems sit up ready to go for you to help automate a lot of the processes. Your customers buy the products FROM your website. They join the business through YOUR website, everything is done online. No offline forms or papers to fill in, or even calling up the office to place an order.

This is the *perfect* world of running a global business in the hottest industry of our time!

About Sam Stone

I don't like talking about myself in the third person so here it goes, I'm currently living in Gold Coast, Australia. I go to the beach almost every day and love to travel.

After leaving high school I did a variety of manual labour and factory jobs before landing in direct sales and started selling home security door to door. Even though many of my friends and family thought I was crazy, I loved it and found a passion for sales.

From there I went on to sell millions of dollars of products with the majority of it in the Timeshare industry. Having an ambitious heart and big dreams, I wanted more freedom. Sales is a great paying job but it is not scalable. You can only see so many people a day.

By accident I stumbled upon internet marketing and discovered people were making a lot of money selling information products and using the internet to leverage a global audience for very low cost. I was hooked

immediately and ever since been studying and building online businesses.
